GSR & Meeting Information

Some groups do not publish their meeting location to the internet. Information provided on this form DOES NOT change that agreement. We use the group information from this form to associate a GSR with the group they represent so we need, at minimum, enough information to identify your group.

Duties of a Group Service Representative (GSR):

- Participate as the ISO Contact for your group.
- Receive information from the ISO about matters affecting your group and the fellowship as a whole and communicate with group members about those matters.
- Represent your group at your Area Assemblies.
